

Overview

Office of Nuclear Materials Integration

DOE Order 410.2, Management of Nuclear Materials

Xavier Ascanio, Director

March 24, 2010

Office of Nuclear Material Integration (ONMI)

Established to promote integrated life-cycle management of accountable nuclear materials. Promotes policies, processes and projects to optimize the management of DOE materials.

Drivers:

- DOE Order 410.2
- Recognized need for integration

Responsibilities:

- Develop Department-Wide NM Materials Management Policy
- Chairs Nuclear Materials Advisory Board (NMAB)
- Integrate Department-Wide NM Consolidation and Disposition Plans
- Report key Nuclear Materials Management Status
- Maintain DOE's Nuclear Material Inventory Assessment (NMIA)
- Integrate Long-Term Material Requirements Planning

ONMI provides focus to manage nuclear materials in a cost-effective manner.

S-2 Approved Construct For DOE Materials Management

DOE Order 410.2

MANAGEMENT OF NUCLEAR MATERIALS

Purpose: Establish requirements for the life-cycle management of DOE-owned and/or – managed accountable nuclear materials.

Updated Order approved August 17, 2009

Order Requirements

- Material Forecast and Allotment Reporting (Annual)
- Nuclear Material Management Plans (Annual)
- Inventory Assessments (Annual)
- Inventory Management (On-going)
- National Strategic Plan (Tri-annually)

HQ Program Offices

- Retain Responsibility for Management of Nuclear Material
- Provide Representatives to NMAB
- Issue Program Requirements and Provide Resources to Field Elements

Nuclear Materials Advisory Board

- Chaired by Director, ONMI
- Membership includes HQ Program Office and Staff Office Reps
- Policy, Guidance, Integration --- Focus is on Corporate DOE vs. Individual Program Office Vision
- Facilitate Inter-Program Coordination
- NM Consolidation and Disposition Performance Tracking

Upcoming Events

- NMMP Guidance Issued (3/31/2010)
- Forecast and Allotment Guidance (4/15/2010)
- Forecast Reports due (6/15/2010)
- NMMPs Due (6/30/2010)
- Nuclear Material Inventory Assessment Guidance (08/31/2010)
- National Strategic Plan for Nuclear Materials (12/31/2010)
